INTRODUCTION

South Carolina Criminal and Juvenile Justice Trends 2008 provides basic information about criminal and juvenile justice in South Carolina. This publication also provides simple statistical information about crime rates, arrests, the courts, inmates, probationers and parolees. It addresses issues of concern about crime and seeks to clarify misconceptions about the state's criminal justice system.

Most trend information in this booklet is based on data for calendar years 1975 - 2007 or the fiscal years 1975 - 2007. Other time frames are specifically noted. Fiscal years are abbreviated using FY followed by the last two digits of the year in which the fiscal year ended. The sum of percentages may not always equal 100 due to rounding. Copies of this report or information regarding this publication can be obtained by writing or sending electronic mail requests to the following:

OFFENSES

CRIME INDEX: The crime index is a basic measure of crime. The offenses defined as index crimes reflect their serious nature and the level of public interest. Murder, rape, robbery and aggravated assault are defined as violent crimes. Breaking or entering, larceny and motor vehicle theft are defined as property crimes. The crime index is the total of these offenses reported by law enforcement agencies to the State Law Enforcement Division (SLED).

CRIME RATE: The crime rate shows the number of index crimes per 10,000 units of population. The crime rate is a measure of criminal activity that allows for meaningful comparisons over time and among areas of differing population sizes.

The formula for calculating crime rates is as follows:

$$\text{Crime Rate} = \frac{\text{Number of Crimes}}{\text{Population}} \times 10,000$$

Crime and arrest rates are determined using data as published by SLED and/or the Federal Bureau of Investigation (FBI). State offense totals for 2007 are based on FBI data. Population estimates are provided by the Budget and Control Board, Office of Research and Statistics (ORS). SLED's publication, *Crime in South Carolina*, as well as other useful information, can be accessed at the SLED website:

<http://www.sled.sc.gov/>

South Carolina's crime index rate increased 1.1% from 2006 to 2007. From 1975 to 2007, the crime index rate increased 12.9%.

CRIME INDEX: The crime index consists of murder, rape, robbery, aggravated assault, breaking or entering, larceny and motor vehicle theft.

State and National Breaking or Entering Rates

South Carolina's larceny rate decreased less than 1% from 2006 to 2007, but has increased 37.9% since 1975.

LARCENY: Larceny is the unlawful taking of property from the possession of another. It includes shoplifting, pocket-picking, purse snatching, thefts from motor vehicles, thefts of motor vehicle parts, and accessories without force, violence or fraud. It does not include embezzlement, con games, forgery, bad checks or motor vehicle theft.

ARRESTS

Arrest counts provide a measure of law enforcement's response to crime and also provide descriptive data concerning offenders. Arrest practices, policies, and enforcement emphases vary from place to place and even within a community over time. The arrest practices for certain unlawful conduct such as drunkenness, disorderly conduct, vagrancy, and related violations may differ among agencies. But the practices for robbery, burglary, and other serious crime arrests are more likely to be uniform and consistent throughout all jurisdictions. Uniform Crime Reporting procedures require that an arrest be counted on each separate occasion a person is taken into custody, notified, or cited. Annual arrest figures do not measure the number of individuals arrested, since one person may be arrested several times during the year for the same or different offenses (Crime in the United States, FBI). Arrest data are available from 1976 forward, but are not available for 2001. State arrest totals for 2007 are based on FBI data.

South Carolina's arrest rate for the crime index decreased 4.0% from 2006 to 2007. From 1976 through 2007, the crime index arrest rate decreased 8.4%.

CRIME INDEX: The crime index consists of murder, rape, robbery, aggravated assault, breaking or entering, larceny and motor vehicle theft.

JUDICIARY

The judicial system of South Carolina consists of several different levels of courts. These courts include the Supreme Court, the Court of Appeals, the circuit courts (both General Sessions and Common Pleas), the family courts, the magisterial courts, the municipal courts, the probate courts, and the master-in-equity courts. The prosecutorial system consists of the circuit solicitors and the Office of the Attorney General. The defense component includes public defender corporations, court appointed counsel, retained counsel, and the Office of Appellate Defense (S.C. Judicial Department). Court data presented in the following pages represent activity on the part of the circuit, magisterial and municipal courts.

More information concerning the Judicial Department, including statistical reports, is available on the Judicial Department's web site at:

<http://www.sccourts.org/>

The number of cases filed in South Carolina's Court of General Sessions increased 2.6% from FY 06 to FY 07.

JAILS

The jail system in South Carolina provides an important example of intergovernmental cooperation. Although jails are the administrative and financial responsibility of local governments, both county and municipal, the South Carolina Department of Corrections (SCDC) is responsible for ensuring that local jails and detention centers meet certain operational standards. Jails must meet these standards to be certified for operation. Jails and detention centers are an important segment of the criminal justice system. Jails are used to detain prisoners before trial, and to provide a place where some inmates may serve their sentences. Data concerning jail capacity and use are available for calendar years 1985 through 2006.

South Carolina's jail capacity increased 188.9% from 1985 to 2006. From 2005 to 2006, jail capacity increased 2%.

JAIL CAPACITY

Year	Capacity	Change
1985	3,762

South Carolina Juvenile Detention Capacity

CORRECTIONS

The South Carolina Department of Corrections (SCDC) is a cabinet agency, headed by a director reporting directly to, and serving at the pleasure of, the Governor. The director administers policy and is responsible for the operation of a modern, statewide penal system. The department is responsible for the incarceration of offenders sentenced to 91 days or more in a safe, secure and humane setting in order to protect public safety. The department also provides offenders with opportunities to become productive, law abiding citizens.

Additional information concerning SCDC, including statistical information, is available on the department's web site at:

<http://www.doc.state.gov/>

South Carolina ranked ninth among the states, incarcerating 524 inmates per 100,000 residents. The national incarceration rate was 506 inmates per 100,000 residents.

**STATES WITH THE TEN HIGHEST
INCARCERATION RATES
2007**

South Carolina Inmates by Sentence Length

Of the inmates released from South Carolina's prisons in FY 03, 32.7% returned within three years.

INMATE RECIDIVISM RATE

Fiscal Year Released	Number of Inmates Released	Recidivism Rate
1995	10,911	32.3%
1996	9,092	32.3%
1997	10,547	30.2%
1998	10,927	28.0%
1999	10,969	27.6%
2000	11,165	29.3%
2001	11,673	32.0%
2002	12,204	32.2%
2003	12,538	32.7%

Notes: Recidivism is defined as an inmate returning to SCDC within three years of release. As a result, there is a three year lag in determining recidivism. It is also important to note that these data do not include inmates released from SCDC who are subsequently incarcerated in a local jail, the penal system of another state or the federal penal system.

South Carolina Inmate Recidivism Rates

COMMUNITY CORRECTIONS

The South Carolina Board of Pardons and Paroles consists of seven members, appointed by the Governor and confirmed by the Senate. This board is responsible for granting paroles and pardons. The South Carolina Department of Probation, Parole and Pardon Services (SCDPPPS) is a cabinet agency, with the director reporting to, and serving at the pleasure of, the Governor.

SCDPPPS is responsible for providing adult community corrections supervision throughout the state. This includes the supervision of those offenders sentenced to probation by the court, paroled by the board or placed on early release programs. SCDPPPS also works closely with the Board of Pardons and Paroles to provide information required for its consideration in granting paroles and pardons.

Additional information concerning SCDPPPS, including statistical information, can be found at the departmental website listed below:

<http://www.dppps.sc.gov/>

Note: From 1941 through Fiscal Year 82, SCDPPPS was known as the South Carolina Department of Probation, Parole and Pardons. From Fiscal Year 83 through Fiscal Year 85, the agency was known as the South Carolina Department of Parole and Community Corrections. The current name has been in use since FY 86. In the interest of both brevity and thoroughness, source notes referring to data taken from annual reports for those years will reference only SCDPPPS for the corresponding years. Full reference, with appropriate citation for all years, can be found under Sources.

In FY 07 South Carolina had 74.9 offenders per 10,000 population under community corrections supervision. Union County had the highest rate with 140.3 offenders under supervision per 10,000.

JUVENILE ARRESTS

Besides being a gauge of law enforcement's response to crime, arrests provide reliable data concerning the age of apprehended offenders. Consequently, arrest rates by age provide one of the best available measures of juvenile delinquency. Uniform Crime Reporting procedures require that an arrest be counted on each separate occasion a person is taken into custody, notified, or cited. As a result, annual arrest figures do not measure the number of individual juveniles arrested, since one juvenile might be arrested several times during a year (Crime in the United States, FBI). In keeping with state law which sets the age of adult responsibility in most criminal matters at seventeen years of age, arrest rates were calculated on the basis of the juvenile (age 0 through 16) population for each year in question. As noted earlier, arrest data are available from 1976 forward but are not available for 2001. Consequently, there is a gap at that point on each graph. Juvenile arrest totals for 2007 represent an estimate of arrestees age 16 and under derived from FBI totals for arrests by offense for arrestees age 17 and under, based on proportions consistent with the state's historical experience.

South Carolina's crime index arrest rate for juveniles increased 11.2% from 2006 to 2007 and decreased 4.7% from 1976 to 2007.

CRIME INDEX: The crime index consists of murder, rape, robbery, aggravated assault, breaking or entering, larceny and motor vehicle theft.

South Carolina Juvenile Arrest Rate for Violent Crime

Fifteen juveniles were arrested for murder in 2007, increasing from 9 in 2006.

MURDER: Murder is the willful killing of one person by another. The classification of this offense is based on police investigation as opposed to the determination of a court, medical examiner, coroner, jury or other judicial body. Deaths caused by negligence, suicide, accident or justifiable homicides are not included.

RESPONSES TO JUVENILE CRIME

The South Carolina Department of Juvenile Justice (DJJ) serves as the state's designated juvenile justice agency. The Family Court is the arm of the state's judicial system that disposes of most juvenile cases. DJJ supports the Family Court system by providing intake services, diversion programs, probation and aftercare supervision. DJJ operates the reception and evaluation (R&E) centers as well as all the state's long term correctional facilities. The R&E centers temporarily hold juveniles committed by the Family Court between the adjudicatory and dispositional hearings for comprehensive diagnostic testing and treatment recommendations. DJJ also operates programs designed to serve as non-institutional alternatives.

Information for DJJ clients was available through FY 06. Additional information, including but not limited to statistical reports, can be found at the DJJ website at:

<http://www.state.sc.us/djj/>

Disturbing schools was the most frequently reported offense among juvenile cases referred to solicitors in FY 06.

Admissions to DJJ Institutions

CRIMINAL JUSTICE FISCAL DATA

This section provides information concerning state appropriations and employment for the administration of justice in South Carolina. It is important to note that a variety of agencies have as part of their mission, criminal justice related functions, and that parts of the mission of some criminal justice agencies might be considered to be outside the realm of criminal justice. County and municipal governments in South Carolina also operate criminal justice agencies, unfortunately employment and expenditure data related to those efforts are not readily available. Federal criminal justice agencies operate in South Carolina, and provide federal funding to state and local units of government for fighting crime and administering justice. This publication does not attempt to capture and define all fiscal data related to every criminal justice function, but rather attempts to provide a broad overview of criminal justice revenue and employment by presenting financial and employment data relating to state agencies that are primarily involved in administering justice and enforcing the law. The most recent data available for state appropriations and employment are for FY 08 - 09. It is important to be aware that these data do not reflect budget cuts or other adjustments that occur during the fiscal year.

The Department of Corrections had the largest appropriation among the state's criminal justice agencies for FY 09.

**STATE CRIMINAL JUSTICE APPROPRIATIONS
FY 09**

Agency	Appropriations
Corrections	\$410
Judicial Dept.	\$60
Juvenile Justice	\$131
Law Enforcement Training Council	\$11
Natural Resources (LE)	\$18
Probation, Parole & Pardon Services	\$52
Public Safety	\$159
SLED	\$82

Notes: Appropriations represent millions of dollars, rounded to the nearest million. The Department of Natural Resources amount only includes appropriations for law enforcement. It is especially important to note that appropriations do not take into account budget cuts that occur during the fiscal year.

Source: 2008 Appropriations Act.

State Criminal Justice Agency Appropriations FY 09

Appropriations for state criminal justice agencies increased 3.2% from FY 08 to FY 09.

STATE CRIMINAL JUSTICE APPROPRIATIONS

Fiscal Year	Appropriation	Change From Prior Year
1994	\$474,547,128	
1995	\$520,919,842	+9.8%
1996	\$550,791,920	+5.7%
1997	\$638,229,999	+15.9%
1998	\$679,189,844	+6.4%
1999	\$716,322,483	+5.5%
2000	\$729,442,252	+1.8%
2001	\$816,744,939	+12.0%
2002	\$749,692,597	-8.2%
2003	\$733,792,784	-2.1%
2004	\$718,275,084	-2.1%
2005	\$713,799,143	-0.6%
2006	\$761,899,976	+6.7%
2007	\$871,921,292	+14.4%
2008	\$893,663,816	+2.5%
2009	\$922,398,665	+3.2%

Notes: This includes appropriations (total funds) for the Department of Corrections, the Department of Public Safety, the Department of Juvenile Justice, the Department of Probation, Parole & Pardon Services, SLED, the Judicial Department, the Law Enforcement Training Council and the law enforcement appropriations for the Department of Natural Resources. Appropriations for the Department of Motor Vehicles were subtracted from Department of Public Safety totals for the years when those agencies were combined to more accurately reflect current organizational structure. It is important to note that appropriations do not take into account budget cuts that occurred during the fiscal year.

Sources: Appropriations Acts, 1993 through 2008.

State Criminal Justice Agency Appropriations

The Department of Corrections had the largest authorized work force among criminal justice agencies for FY 09, with 6,283 positions.

**STATE CRIMINAL JUSTICE EMPLOYMENT
FY 09**

Agency	Positions
Corrections	6,283
Judicial Dept	585
Juvenile Justice	1,836
Law Enforcement Training Council	113
Natural Resources (LE)	302
Public Safety	1,725
Probation, Parole & Pardon Services	855
SLED	649
Total	12,349

Notes: Full time equivalent positions are rounded to the nearest whole number. The Department of Natural Resources full time equivalent positions include only law enforcement positions. It is important to note that all authorized positions are not necessarily filled and that any mid-year reductions are not included.

Source: 2008 Appropriations Act.

Authorized Positions for State Criminal Justice Agencies, FY 09

From FY 94 to FY 09, the number of authorized positions for state criminal justice agencies increased 12.1%. From FY 08 to FY 09 the number of positions increased less than 1%.

STATE CRIMINAL JUSTICE EMPLOYMENT

Fiscal Year	Positions	Change From Prior Year
1994	11,018	
1995	11,594	+5.2%
1996	12,013	+3.6%
1997	12,795	+6.5%
1998	13,267	+3.7%
1999	13,369	+0.8%
2000	13,555	+1.4%
2001	13,697	+1.0%
2002	13,667	-0.2%
2003	13,601	-0.5%
2004	13,598	<-0.1%
2005	13,517	-0.6%
2006	11,837	-12.4%
2007	12,009	+1.5%
2008	12,300	+2.4%
2009	12,349	+0.4%

Notes: This includes authorized positions for the Department of Corrections, the Department of Public Safety, the Department of Juvenile Justice, the Department of Probation, Parole & Pardon Services, SLED, the Judicial Department, the Law Enforcement Training Council and law enforcement positions within the Department of Natural Resources. Positions for the Department of Motor Vehicles were subtracted from Department of Public Safety totals for the years when those agencies were combined to more accurately reflect current organizational structure. As previously noted, not all authorized positions are necessarily filled.
